The Moab area has been a filming location since 1949. Enjoy this guide as a glimpse of Moab's movie past as you tour some of the most spectacular scenery in the world.

All movie locations are accessible with a two-wheel drive vehicle. Movie locations on private lands are included with the landowners' permission. Please respect the land and location sites by staying on existing roads. Please keep in mind that there are no existing sets left intact.

CANYON COUNTRY MINIMUM IMPACT PRACTICES

1. Tread lightly when traveling and leave no trace of your camping. Drive and ride only on roads and trails where such travel is allowed: hike only on established trails, on rock, or in washes. Camp at designated sites or, where allowed, at previously-used sites. Avoid planting tents on top of vegetation and use a camp stove instead of making a campfire. Unless signs indicate otherwise, leave gates open or closed as you find them.

2. Help keep Canyon Country clean. Pack out your trash and recycle it, clean up after less thoughtful visitors, and dispose of human waste properly.

3. Protect and conserve scarce desert water sources. Camp at least 300 feet from isolated water sources to allow for wildlife access. Where possible, carry your own drinking water. Leave potholes undisturbed and wash well away from pools and springs.

4. Allow space for wildlife. When encountering wildlife, maintain your distance and remain quiet. Teach children not to chase or pick up animals. Keep pets under control.

5. Leave historic sites, Native American rock art ruins and artifacts untouched for the future. Admire rock art from a distance and never touch it. Stay out of ruins, leave artifacts in place, and report violations.

494 - Wagon Master - Argosy Productions.
