UTAHRAPTOR STATE PARK

Dalton Wells Dinosaur Quarry and Willow Springs are areas north of Moab that many locals and visitors enjoy. The most incredible Utahraptor fossil and other species were found in this area. The Utah Legislator Eliason has sponsored House Bill 257 to create the Utahraptor State Park. To show your support to the Legislature for this new State Park, we request your financial pledge. **Grand County, Utah, is pledging up to \$50,000 to match the commitments received.**

This area is so essential to protect and preserve; over the years, it has served many visitors well. It continues to attract heavy volumes of visitors camping and enjoying outdoor activities. As a result, it has experienced much destruction in the process. It is time we take the necessary steps to save this precious area.

We must protect and preserve this area that has a wealth of history for future generations to enjoy. Time is of the essence, so please show your support to the Legislature to create this new State Park.

We ask you to support a financial pledge that Grand County, Utah will match.

[Make your tax deductible pledge here](#)
